

Appendix 1-A
Photographs of the Project Area

Photo 1: View of dredge tailings in southern project area, looking north.

Photo 2: View of southern parking lot regrade area, looking southwest.

Photo 3: View of Pit 2 pond, looking northeast from the southern parking lot regrade area.

Photo 4: View of river access area south, looking northwest.

Photo 5: View of approximate location of outflow weir and fish barrier berm, looking east.

Photo 6: View of existing berm from the location of the notch connection to Feather River, looking northeast up main drainage canal.

Photo 7: View of interior canal grading area, looking northwest from the proposed notch connection project area.

Photo 8: View of interior canal grading area, looking southwest.

Photo 9: View of interior canal grading areas, looking north.

Photo 10: View of interior canal grading areas, looking east-northeast from berm towards the Sierras.

Photo 11: View of north parking area – portable restroom area, looking northwest.

Photo 12: View of vegetation in northern area, looking south from the existing berm.

Photo 13: View of existing road and Feather River, looking west from the existing berm at the proposed rock gabion inflow weir location.

Photo 14: View of interior canal, looking west.

Photo 15: View of river access area north, looking northeast from the berm.

Photo 16: View of existing inflow weir, looking east from the berm.

Photo 17: View of river access area south, looking southwest.

Photo 18: View of existing inflow weir, looking south.

Photo 19: View of dredge tailings, looking east from the north access road at the existing inflow weir site.

Photo 20: View of the Feather River backwater area, looking northeast from the existing berm.

Photo 21: View of dredge tailings and vegetation, looking southeast from the north perimeter berm where it makes a 90 degree turn north.

Photo 22: View of dredge tailings and vegetation, looking southeast from the north access road entrance.
